DPS Chas -Pivoting for Global Excellence

Greetings to all !

With the firm belief to make a difference in the lives of young ones - by redefining thinking and reaffirming creative educational perspectives; DPS CHAS ever since it has reposed the foundation stone in April 2017 has scaled to new heights. This has been a collaborative effort of many individuals and experiences put into one.

The school is an enthusiastic and exciting responsibility taken up with the aspiration to create a world-class institution to conform to the educational needs of students with incomparable abilities and nonpareil dreams.

The five consecutive years that the school has journeyed through has fetched a laudable feat. Its mission is very definitive. The school has several accomplishments under its name which has brought into view the meticulous effort that it has been undertaking persistently. KAMP NASTA, Aryabhatt Ganit Challenge, International Spell Bee, French Language Competition, Vidyarthi Vigyan Manthan, Geeta Chanting Competition and Olympiads besides class X results which are some of the areas that the school has achieved laurels in.

The campus of the school is a vibrant enclosure with pedagogy and pastoral care so unique. Learners here are groomed to think out of the box, engulf articulation, innovation, creativity, evolve with leadership skills and develop an amazing life-skill system for selfless service to society.

DPS Chas gives best wishes for Merry Christmas and Happy New Year !!

Warm Greeting!

Tough Times Never Last, But Tough People Do!

Education at DPS, Chas has always been an amalgamation of the traditional virtues and what the scientifically sound world has to serve. With its mission to water the roots and to make children stand as a tall perennial tree the school leaves no stone unturned and acquires all the methodologies and pedagogies that can develop the potentials inherent in the growing child. Young lives can be taught to uphold the virtues so tight; their minds can be trained to foster new insights and create powerful thoughts. And it is overwhelming to acknowledge that the school has been meticulously accomplishing the task over the rolling years.

It is very important to learn the art of making a bold and daring move, to make a creative transition. Seeing the best among adversities can claim greatness. So, it is important to train children with skills that can shun the fear that controls them. rather they should be taught to have control over the fears. Remember, there is no situation that cannot be transformed. A strong belief can lead to unmatched transformation. So, let us provide children with experiences so strong which can revise their belief system and can mould their personalities with a lead heart and an iron body.

It is such joy to be a part of the team, head it and revolutionize the experiences of each child. The pupils of today are the citizens of tomorrow. Whatever we teach them, train them in, will cast an impact on the fortune of the nation and impact every soul.

Let's us together make a dent in the world by our great work and virtues that may inspire others to transform minds, transforming lives thereby transforming society!

Regards
